CHRIST'S FAMILY CLINIC

FALL NEWSLETTER

OUR FALL OPEN HOUSE WAS A BEAUTIFUL SUCCESS!

This past August, Christ's Family Clinic opened its doors for an Open House, graciously hosted by our longtime home and partner, Preston Road Church of Christ. Members and supporters of the Clinic joined us for a special morning of connection, discovery, and community.

Guests had the opportunity to tour our exam rooms and patient spaces, meet our incredible staff, and learn firsthand about the men and women we are privileged to serve every day. For many who attend Preston Road each week, it was a remarkable moment to step downstairs and see the Clinic that has been quietly serving the uninsured adults of Dallas right beneath their feet.

We were so moved by the warmth, curiosity, and generous spirit of everyone who came through our doors. Events like this remind us that Christ's Family Clinic is not just a Clinic. It is a community, made possible by people who believe that every person deserves quality healthcare and dignity.

Thank you to Preston Road Church of Christ for making this event possible, and to all who joined us. We hope to see even more of our community at future events!

Patient Survey Results

This summer we introduced our first ever patient satisfaction survey. Their feedback was not only encouraging – it was a powerful reminder of why we do what we do every single day.

95%

of patients were extremely pleased with physician care

92%

of patients are extremely likely to recommend the Clinic

91%

of patients were extremely likely to return for care

In The Words Of Our Patients:

"The doctors were able to give me more info on my concerns as well as doing lab work to make sure I was healthy. Very kind."

"The most thoughtful and kind ever. I have never felt judged. The doctor and her whole team have treated me with such kindness and empathy that I'm emotional just writing this."

“I thought because I'm uninsured I shouldn't seek a yearly physical, but with the affordability I am glad I can keep an eye on my health."

VOLUNTEER SPOTLIGHT
DR. MICHAEL HARRIS

Dr. Michael Harris has recently retired, and we are grateful for the years of faithful service he gave to Christ's Family Clinic. He began volunteering with us in 2004, and for two decades he brought his skill and compassion to our patients.

A board-certified ophthalmologist, Dr. Harris came to the Clinic one Thursday each month to care for our patients. He examined eyes, treated our patients with the same dignity and attention they would receive anywhere, and often connected them with the care they needed. He regularly provided free reading glasses to those who needed them.

Dr. Harris often said that the greatest lesson he learned through volunteering was gratitude. Our patients taught him to see the blessing in simple kindness.

Thank you, Dr. Harris, for your generosity, your skill, and your heart for our patients.
